Market Summary

CryptoRadar market report generated on 20 May 2026 at 14:13 IST. The combined market capitalization of tracked assets stands at ₹186.01 trillion INR.

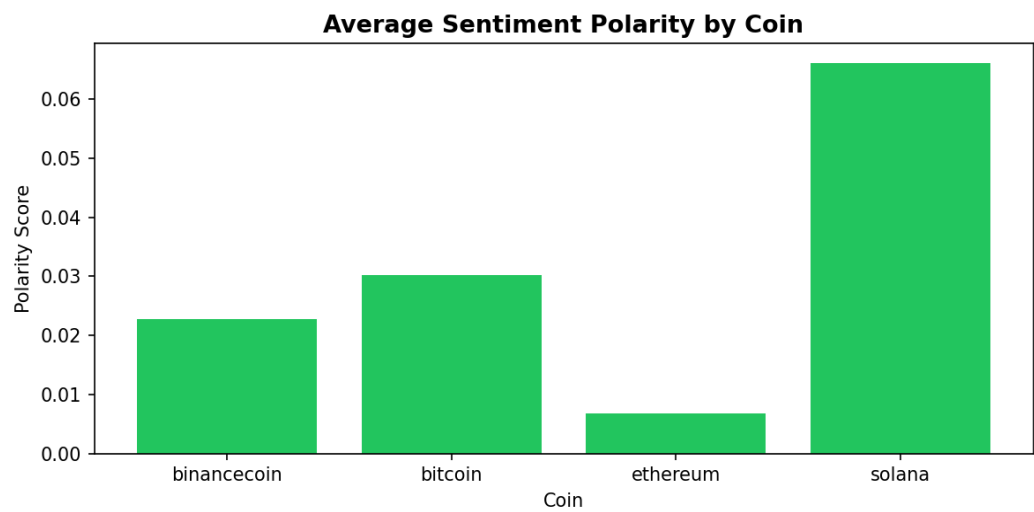

In the last 24 hours, BNB was the best performer with a -0.13% price change, while ETH recorded the weakest performance at -0.77%.

Overall market sentiment is neutral with an average polarity score of 0.031. Key recommendation: Monitor RSI levels closely — ETH is currently oversold and may present a buying opportunity. Maintain diversified exposure across BTC, ETH, BNB and SOL.
